

Master Gunners

Quadrant Construction

Groundworks, foundations & concrete frames

Fannon Group have just completed the first phase of a residential development for Quadrant Construction.

This scheme consisted of 63 new residential properties with a mixture of flats and houses plus associated roads, parking and hard & soft landscaping. Since the successful completion at Master Gunners, Fannon Group have been chosen to carry out future projects with L&Q, the most recent being Erith Baths.

Scope of work:

The development consisted of; deep strip foundations, CFA piling, rainwater attenuation system, beam and block floors, substructure brickwork and a new RC frame between three and five stories.

Contract Information:
